Relays

- 80+, 100+, 120+, 160+, 200+, 240+, 280+, 320+, 360+ etc.

2.2 Individual

- A swimmer may enter a maximum of 2 individual events per session.
- Entry times have to be verifiable and swum from November 1st, 2024 onwards.
- Entry times need to be:
 - swum at an official competition sanctioned by a national swimming federation.
 - found on www.swimrankings.net. For foreign clubs, if a time is **not** listed in Swimrankings, a link to the website and a PDF of the results of the relevant competition must be sent with the registration.
 - The participant may choose which swim time from the qualifying period to enter with. This does not have to be the fastest time. The chosen time will also be used for the purpose of limitation, if applicable (see 5.b). Times swum in 25m and 50m pools may be used. Recommended is to choose the course length that gives the most points (see the information on 'Limitation').
- Times made in unofficial competitions or in unlawful starts will not be accepted.
- Times made by the first swimmer in a relay will be accepted, as long as they were marked in the official results.
- Split times may be used as entry times, as long as they were marked in the official results.

2.3 Relays

- More than one relay team per club may be entered in an event.
- A swimmer will only be allowed to swim in one team in each relay event.
- In connection with the correct functioning of SplashMe, the relays must have a unique sequence number per program number, regardless of gender. The same order number may not appear in the men's, women's or mixed relays. For example, if the women's relay has numbers 1 to 3, the men's relay should start with number 4.
- The following requirements apply to the registration times for the relay, where a distinction is made between the requirements according to distance:
 - For **4 x 100m** and **4 x 200m relays**, the times of the swimmers must meet the same requirements as those set for the registration times for the individual distances, as stated in Chapter 2.2. It is also permitted to register a relay that has swum a time at the relevant distance within the limit period in the same team composition.
 - For **4 x 50m**, team members do not need to have swum an official time at the relevant distance. However, be sure that the entry time of the relay is realistic.
- Attention!** All relays will be placed in the appropriate age group based on the sum of the age of the individual participants (per 31 December of the year of competition). Relay teams with one or more 20+ participants are excluded from European and World Masters record and European & World Aquatics rankings.
- Replacing swimmers in a relay is only allowed if the gender and age group of the relay remains the same (Women/Men/Mixed).
